

Lexia® English Language Development™

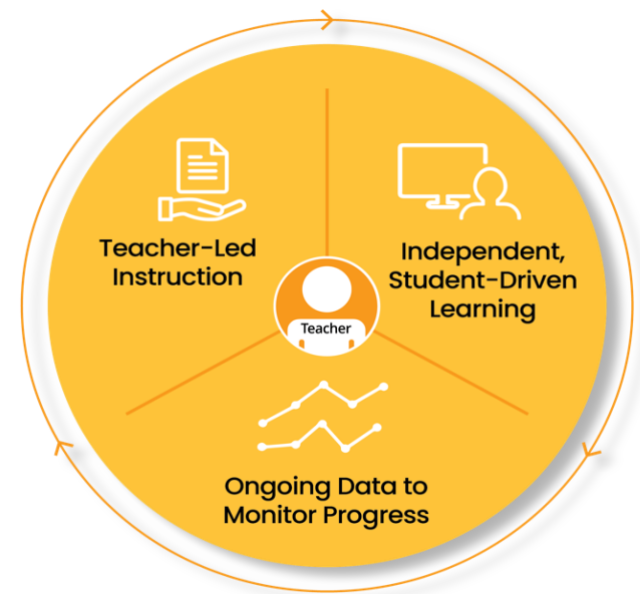

ELPA21 English Language Proficiency Standards: Arizona ELP

Lexia English is an adaptive blended learning speaking and listening program that supports students' English language development through academic conversations. Developed to address the need for educational equity for Emergent Bilinguals, Lexia English offers an engaging, individualized approach that helps improve students' language proficiency. The software is designed to help Emergent Bilingual students in grades K-6 acquire higher language proficiency levels of English. It integrates speaking, listening, and grammar, while emphasizing the language of content in Math, Science, Social Studies, General Knowledge, and Biographies.

Lexia English addresses English language development with a primary focus on speaking and listening skills, aiming to drive Emergent Bilingual students' language proficiency. This document demonstrates how all Levels of Lexia English align to the Arizona English Language Proficiency (ELP) Standards. Included is a Crosswalk, which demonstrates the relationship between the ELPA21 Standards and the Arizona ELP Standards. The ten main standards for each are worded identically and areas where Arizona extends the learning within the Standards are indicated.
