

# Research-Proven Literacy for All: Lexia Core5 Reading

## Literacy Acceleration for Students in Grades Pre-K-5

Lexia® Core5® Reading is an adaptive blended learning program that supports the individualized instruction needed to teach literacy to a diverse student body. Including the examples below, there have been 20 peer-reviewed and published research studies proving Core5's effectiveness, and the program has received a STRONG rating from Evidence for ESSA.

- ✓ **Emergent Bilinguals (EBs):** The number of EBs on track to meet reading proficiency standards doubled after a year of Lexia Core5 Reading use. [SOURCE](#)
- ✓ **Low Socioeconomic Status Students:** Users in a Title I-funded school showed more than 3x the reading gains compared to non-users. [SOURCE](#)
- ✓ **Dyslexic Students:** After a year, users with dyslexia and other reading and language-based disabilities were 2x more likely to be proficient readers than non-users. [SOURCE](#)
- ✓ **Readers Below Grade Level:** Nearly two-thirds of Tier II readers moved up ≥1 aimsweb tiers after a year of use. [SOURCE](#)
- ✓ **Special Education Students:** Core5 is 64% more effective than the typical intervention for students in special education receiving reading support. [SOURCE](#)
- ✓ **Urban Students:** Users in an urban school district had a 20-point gain over non-users on a standardized reading assessment. [SOURCE](#)
- ✓ **Rural Students:** Users in a rural school district gained nearly 20 percentile points more than non-users on a standardized reading test as part of a gold-standard study. [SOURCE](#)
- ✓ **Charter School Students:** Students who used Core5 earned significantly higher MAP scores than those using their school's standard curriculum. [SOURCE](#)

### See the Results: Data on Demand

Lexia's patented Assessment Without Testing® technology provides teachers and administrators a full view of progress by student, class, school, or district on demand, without stopping instruction to give, or grade, a test.

**Core5 has the structure, rigor, and individualization required to provide equitable learning opportunities for all students without overloading teachers. Visit [lexialearning.com/research-proven](https://lexialearning.com/research-proven) to learn more.**

During the pandemic,

**OVER  
40%** 

of students using Core5 exceeded MAP Growth targets. [SOURCE](#)
